MINUTES

CITY OF SAN LEANDRO CITY COUNCIL AND SAN LEANDRO REDEVELOPMENT AGENCY JOINT MEETING

MAY 7, 2007

Civic Center
835 East 14th Street
San Leandro, California

REGULAR MEETING

7:00 PM—City Council Chambers

1. CALL TO ORDER

The meeting was called to order at 7:00 p.m.

A. Pledge of Allegiance to the Flag

Mayor Tony Santos led the Pledge of Allegiance to the Flag.

B. Roll Call

PRESENT: Members Grant, Gregory (left at 9:10 p.m.), Prola, Souza, Starosciak, Stephens; Mayor Santos

ABSENT: None

2. PRESENTATIONS/RECOGNITIONS

A. Proclamation Declaring May 13-19, 2007 as Affordable Housing Week in San Leandro.

Esperanza Alcantor, from Congregations Organized for Renewal, accepted the Affordable Housing Week proclamation.

B. Proclamation Declaring May 1, 2007 as Relay for Life Paint Our Town Purple Day and May 19-20, 2007 as San Leandro Relay for Life Days.

Alicia Schwemer accepted the Relay for Life proclamation.

C. Matter of Commendations of Board and Commission Members (approves ceremonial resolutions of the City Council).

- Minute Order No. 2007-056, Resolution Commending Dean Koenig for His Years of Service on the Recreation and Parks Commission. (1020)

The City Council approved the resolution commending Dean Koenig for his years of service on the Recreation and Parks Commission.

Dean Koenig accepted the resolution commending his years of service on the Recreation and Parks Commission and thanked the City Council for the opportunity to serve on the Commission.

- **Minute Order No. 2007-057**, Resolution Commending James R. Wohltmann for His Years of Service on the Planning Commission. (1018)

The City Council approved the resolution commending James R. Wohltmann for his years of service on the Planning Commission.

M/S/C Starosciak and Prola. Ayes: 7; Noes: 0

With the consensus of the City Council, Mayor Santos took Item 10.B. out of order.

- 10.B. Request from Councilmember Starosciak to Reconsider the Resolution Authorizing City Manager to Sign a Letter of Intent to Support the Formation of the East Bay Regional Communication System (EBRCS) Governed by a Joint Powers Authority (JPA) for Alameda and Contra Costa Counties.

Councilmember Starosciak stated her reasons for requesting reconsideration of the resolution, which was adopted by the City Council at its meeting on April 16, 2007. She indicated that additional questions came to mind after the meeting, which prompted her to do further research. During her research, she found that while interoperability is essential to San Leandro's safety, there are questions about the EBRCS that should be asked before the Letter of Intent is signed. Councilmember Starosciak stated that she has contacted a number of agencies regarding their knowledge of the process. Councilmember Starosciak spoke with Grace Koch from the Governor's Office of Emergency Services, who informed her that the State OES had not heard of the EBRCS until last week. Councilmember Starosciak read from a document provided to her by Ms. Koch entitled, "State of California Interoperability Overview and Initial Assessment of the East Bay Regional Communications System." The document posed several questions about the EBRCS. Councilmember Starosciak requested that the Council reopen the issue to allow further discussion and review the questions posed by the State OES.

Public Comments on Item 10.B.:

Rocky Medeiros, San Francisco Bay Area Urban Area Security Initiative (Super UASI), addressed the City Council, stating that the Super UASI is a regional homeland security grant program charged with program development and implementation for the entire San Francisco Bay Region. Mr. Medeiros commented that, prior to his work with the Super UASI, he worked in collaboration with Alameda and Contra Costa Counties to develop the EBRCS interoperability model and worked hand-in-hand with the State OES. Mr. Medeiros stressed

the need for interoperability and assured the Council that the State OES is aware of the EBRCS.

Lou Filipovich, San Leandro resident, addressed the City Council regarding the way local government works in Alameda County, taxpayers' revenue and the rules for public participation at City Council meetings.

End of Public Comments on Item 10.B.

Councilmember Stephens commented that, given the need for interoperability among public safety agencies, he feels the action taken at the meeting on April 16 was necessary. He stated that while he understands Councilmember Starosciak's concerns, he is comfortable with the decision.

Councilmember Gregory concurred with Councilmember Stephens. He quoted from the California Performance Review, which stated that the lack of standardized equipment can endanger peace officers in an emergency. Councilmember Gregory indicated that in his work for a first response organization, he has experienced the need for effective communication in times of emergency. He supported retaining the original action.

Vice Mayor Grant expressed her understanding that the action taken on April 16 was to issue a letter of good faith that the City intends to participate in the system, but not that the City lends full support or full funding for the system at this time. She noted that San Leandro's neighboring cities, Oakland and Hayward, have not yet signed on to the system. Vice Mayor Grant requested that the City Manager and Fire Chief provide the Council with frequent and periodic updates regarding which agencies have agreed to participate in the system and updated cost estimates. She commented that it is unclear in the documentation that the system requires the formation of a Joint Powers Authority (JPA), and Councilmember Starosciak's comment that a bureaucracy would be created to manage a radio system was on point. Vice Mayor Grant stated that the City needs to establish a point at which it decides that it will either participate or not.

Mayor Santos noted that the City of Hayward would be voting on a Letter of Intent tomorrow. He indicated that there would be an opportunity for full discussion when the joint powers agreement is presented to the Council.

City Manager Jermanis clarified that the \$100 per radio good faith contribution would be made once the Council reconfirmed its support for the Letter of Intent. He indicated that there would be several opportunities for the City to opt out of the agreement, even after the City became a member of the JPA. Mr. Jermanis pointed out the need to rely on the information provided by Chiefs Attarian and Gilbert and their judgment and recommendations. Mr. Jermanis noted that on the State OES website, minutes from a meeting in March 2006 indicate that it received a presentation of the EBRCS by Alameda County.

Councilmember Prola commented that he has given the matter a good deal of thought, and he feels comfortable with his previous vote. He stated his willingness to change his vote if the

two-county group could not raise sufficient funding or garner sufficient support for the system.

Councilmember Souza commented that there is a group comprised of 10 counties working toward interoperability, and she expressed preference for joining a 10-county system rather than a two-county system. She noted that there was no feedback from the State OES on the March 2006 presentation on EBRCS. Councilmember Souza asked whether the JPA could be formed without the support of Oakland, and if there have been bids on the radios other than by Motorola. She commented that the EBRCS Task Force is unaware of the work of the committees formed by the State OES to address interoperability. She expressed concern that the JPA would bypass the State and apply for funding directly from the federal government and the message that would send to our State legislators.

- Motion to Reconsider Resolution No. 2007-059. (3115)

A motion to reconsider Resolution No. 2007-059 failed by a vote of 2 to 5.

M/S Starosciak and Souza. Ayes: 2; Noes: 5 (Gregory, Grant, Prola, Stephens, Santos)

3. PUBLIC HEARINGS

Public Hearing Comments are limited to 5 minutes per speaker, subject to adjustment by the Mayor. When you address the City Council, you should **fill out a speaker card** and submit it to the City Clerk so the order of speakers may be determined and an official record of names and addresses obtained.

- A. Matter of **PLN2006-00104**, Planned Development, Zoning Map Amendment, and Vesting Tentative Map; to rezone the properties at 311-335 MacArthur Boulevard/Herma Court from CC Commercial Community and RS Residential Single-Family Districts to CC (PD) and RS(PD), respectively. The project is a proposed residential development with 23 townhouses at the corner of MacArthur Boulevard and Herma Court. Proposed amenities include a private roadway, an internal park area, attached one- and two-car garages, and six guest parking spaces on the site. The site is zoned CC Commercial Community District and RS Residential Single-Family. Assessor's Parcel Numbers 76-311-1-1, 76-311-1-3, 76-311-3, 76-311-4, and 76-311-5; **311-335 MacArthur Boulevard/Herma Court**; Ruffin Architecture (Applicant); Settlemeir Properties (Property Owner).

This being the time and place for the Public Hearing on the above matter, City Manager Jermanis gave background on the matter and introduced Community Development Director Hanson Hom. Mr. Hom stated that the planned development process is not an arbitrary process. He described the process for applying zoning standards in evaluating a planned development application. Key considerations are made by staff, including conformance with General Plan goals and policies; recent development trends; key

policy considerations; past City standards for issues such as parking, traffic, setbacks, and fences. He noted that sometimes trade-offs are made by relaxing a standard to achieve a better outcome for another aspect of the project. Mr. Hom noted the importance of examining the intent and purpose of the zoning standards rather than just following the letter of the law. He pointed out that while a planned development allows for greater staff discretion and flexibility, there is a higher standard of review, with recommendation required by the Planning Commission and final approval by the City Council.

Planning Manager Debbie Pollart gave a PowerPoint presentation describing the proposed project.

Staff responded to questions from the Council regarding the land swap version of the proposal, the short wall along MacArthur Boulevard and the hours of construction.

Applicant Reid Settlemeir and Architect David Ruffin gave a PowerPoint presentation providing additional details on the proposed project, including the outreach to neighborhood associations, architectural details and landscape features.

The Hearing was then opened to the public.

Due to the number of speakers for this item, Mayor Santos adjusted the time limit to three minutes per speaker.

Phil St. Laurent, San Leandro resident, addressed the City Council, commenting that the project does not fit in with the surrounding area and should be commercial rather than residential. Mr. St. Laurent commented on the narrow streets, the amount and speed of traffic on MacArthur Boulevard, and the lack of parking for the project.

Bridgit Lawley, San Leandro resident, addressed the City Council, expressing concern that the proposed three-story homes in a neighborhood with lower profile homes would be grossly out of proportion and aesthetically unappealing.

Karen Clarkson, San Leandro resident, addressed the City Council, commenting that surrounding property owners were not given adequate notice of the project, and the Broadmoor Neighborhood Association has not seen nor approved the current version of the project. Ms. Clarkson commented that the project does not meet General Plan guidelines or zoning regulations, does not provide sufficient parking and would result in increased traffic, requires five variances and has not received sufficient community input or BZA review.

Leslie Salmon-Zhu, San Leandro resident, addressed the City Council, commenting that zoning requirements should not be relaxed to allow a development which does not conform to existing standards. Ms. Salmon-Zhu addressed the subjects of setbacks, fencing and landscaping, for which the developer is requesting exceptions.

MINUTES

Page 6

City of San Leandro City Council and San Leandro Redevelopment Agency Joint Meeting—May 7, 2007

Vera Ayers, San Leandro resident, addressed the City Council, expressing concern regarding the height and size of the project, the exceptions made to the zoning requirements and the inadequacy of the public notice. Ms. Ayers urged the Council to represent the community on this matter.

William Artz, San Leandro resident, addressed the City Council, expressing concern that the project does not fit in with the neighborhood. Mr. Artz commented on the parking issue, the adequacy of tandem parking, and the narrow streets adjacent to the project.

Rick Murray, San Leandro resident, addressed the City Council, commenting that he feels the project would be a change for the better and would improve the neighborhood.

Leah Scherbe, San Leandro resident, addressed the City Council, commenting that she feels the project is too dense and would cause traffic impacts on the nearby narrow streets.

Patty Vonnegut, San Leandro resident, addressed the City Council, expressing concern that the project is too high, too dense, and out of proportion to the area. Ms. Vonnegut urged the Council to deny the project.

Ken Johnston, San Leandro resident, addressed the City Council, commenting that this development would set a precedent for concessions on future developments. Mr. Johnston requested that the Council consider the density of this project.

Hillary Van Austen, President of the Broadmoor Neighborhood Association (BNA), addressed the City Council, commenting that the BNA was only recently made aware of the changes to project. Ms. Van Austen requested that the Council consider delaying its vote to allow the BNA time to review the changes to the project at its next meeting.

Roy H. Gregg, San Leandro resident, addressed the City Council, expressing concerns regarding the traffic and parking impacts from the project, as well as the impact to the existing homeowner of a three-story home across the street and tot lot next door. Mr. Gregg expressed opposition to the project and urged the Council to postpone its decision to allow further review of the project.

Patricia Martin, San Leandro resident, addressed the City Council, commenting on the traffic volume and speed of traffic flow on MacArthur Boulevard. Ms. Martin commented that the project is too tall and asked what the community is receiving in exchange for the trade-offs. Ms. Martin urged the Council to take the concerns of the residents seriously.

Sue Chen, San Leandro resident, addressed the City Council, stating objection to the project as currently presented, as well as to the project approval process. Ms. Chen commented that she feels the notification process meets the law, but not its intent. She

MINUTES

Page 7

City of San Leandro City Council and San Leandro Redevelopment Agency Joint Meeting—May 7, 2007

expressed concern regarding the traffic and parking impacts and density of this development.

Gail Husson, San Leandro resident, addressed the City Council, expressing concerns regarding the proposed diagonal parking and the streetscape improvements on MacArthur Boulevard which narrowed the roadway. Ms. Husson commented that she feels the project is too big for the area and sees no good reason why the zoning requirements should be relaxed for this particular project.

Maria Johnston, San Leandro resident, addressed the City Council, expressing concern regarding the exceptions made for the project and the precedent that they set.

Jim Willson, San Leandro resident, addressed the City Council, commenting that it would be a good idea for the Council to delay its vote on the project. Mr. Willson showed photos of the neighborhood and the same photos with a simulation of a large building blocking the sunlight and views.

Blaine Andrews, San Leandro resident, addressed the City Council, commenting that the project is an opportunity to beautify the neighborhood and improve the conditions on MacArthur Boulevard.

Ronald Gehrke, San Leandro resident, addressed the City Council, commenting that he feels this is a good project and expressing his support for it.

Susan Rose Riskind, San Leandro resident, addressed the City Council, commenting that the BNA and other affected HOAs were not consulted about the changes and have not had the opportunity to view the development in its present form. Ms. Riskind commented on the lack of information and outreach for the project and the inadequate buffer zone between this project and the surrounding neighborhood.

Lou Filipovich, San Leandro resident, addressed the City Council, expressing agreement with the comments made by the previous speaker. Mr. Filipovich commented on mandatory vs. voluntary homeowner associations and expressed concern regarding the way in which the City manages redevelopment and the tax increment.

Mark Gehrke, San Leandro resident, addressed the City Council, expressing concern regarding the speed of traffic traveling on MacArthur Boulevard. Mr. Gehrke expressed support for the project, commenting that he believed the proposed project would bring new life to the area and possibly slow the traffic down.

Robert V. Caruso, San Leandro resident, addressed the City Council, stating that he is the developer of a housing project on MacArthur. Mr. Caruso noted that the population pressures and economics of the area do not allow for low density projects to be built. He commented on the challenges of building higher density projects that successfully integrate with a surrounding lower density neighborhood. Mr. Caruso

MINUTES

Page 8

City of San Leandro City Council and San Leandro Redevelopment Agency Joint Meeting—May 7, 2007

commented that he feels this project is a good one and would improve the neighborhood, make it safer, attract new business, and improve the vitality of the area.

Councilmember Gregory commented that he favors the project as it brings more housing into the City and supports the principles of transit-oriented development. He commented that he feels the parking issues could be mitigated. Councilmember Gregory stated that, if it is true that the changes to the project were not communicated to the neighborhood associations, he would favor delaying the decision.

Councilmember Gregory left the meeting at 9:10 p.m.

Applicant Settlemeir responded to the public comments, indicating that there would be a decrease in the number of vehicle trips generated by the project due to the elimination of the commercial aspect. Mr. Settlemeir noted that the project is the same size as what was previously approved, but there are more and smaller units. Mr. Settlemeir disputed the notion that the project would be “big grey boxes,” and he pointed out the architectural features of the proposed project. He acknowledged that he did not do an adequate job of gaining community support for the project; however, he stated that the local businesses and many local residents do support it. Mr. Settlemeir commented that over the past week, a negative email campaign was waged against the project. He remarked that the opposition by the neighbors is purely a NIMBY reaction.

Architect Ruffin addressed the concerns about the fences near the property line, the setback on MacArthur and the “looming” of the buildings over neighboring residences. He noted that, while the buildings will be taller than what is currently there, they will be primarily on the MacArthur side. Mr. Ruffin stated willingness to consider reducing the Herma Court duplexes from three stories to two.

The applicant and architect responded to questions from the Council regarding the front walls; the orientation, setbacks and driveways of the homes on Herma Court; meetings the applicant held with the BNA and whether they have seen the new project configuration; the project footprint; the owner of the narrow lot and the possible land swap; neighborhood meetings held at Stepping Stones; and the number of inclusionary housing units required for this project.

There being no further comments from the public, and without objection, the Public Hearing was closed.

Vice Mayor Grant acknowledged staff's good work on the project. She stated that she supports additional housing in the area and complimented the architecture of the project. Vice Mayor Grant commented that she feels the project is too dense for the community and the parking ratio is insufficient. She indicated that she was neither in favor of the increased floor area ratio, nor of the setback variances.

Mayor Santos pointed out that this project is supposed to generate fewer vehicle trips and require less parking than if it had a commercial component. He commented on the changing times and the need for higher density projects to meet the demand for housing.

MINUTES

Page 9

City of San Leandro City Council and San Leandro Redevelopment Agency Joint Meeting—May 7, 2007

Councilmember Starosciak commented that in the time she has been on the Council, she has not seen a single-family housing development project presented for approval. She commented that the inclusionary zoning requirement is causing the need for increased density, and those who believe in the importance of inclusionary housing must accept increased density and its impacts. Councilmember Starosciak expressed concern about the massing impact of the proposed project and having three-story homes directly adjacent to single-story homes, and she suggested a better “step down” of the buildings. Councilmember Starosciak expressed concern that northbound traffic on MacArthur would back up if left turns were allowed into the project. She asked what the City would get in return for the exceptions being made for the project. Ms. Barros commented that the trade-off for the parking exception would be the additional open space on the site. The setback exception applies only to the most northerly corner unit and on the MacArthur side where the patios encroach on the property line. The additional landscaping would mitigate the loss of setback.

Councilmember Souza asked how the parking requirement might be affected if the units on Herma Court were reduced from three stories to two. Ms. Barros indicated that it would depend on the reduction in the number of bedrooms. Councilmember Souza applauded the members of the public who attended the meeting to express their opinions on the project. She commented on the parking issues and that higher and denser projects are the wave of the future. Councilmember Souza indicated that she would not be opposed to delaying the decision due to the uncertainty of the land swap. Mr. Hom commented that if the applicant and property owner came to agreement on the land swap, the Council would need to approve the change to the tentative map.

Councilmember Stephens commented that he has been continually monitoring the BNA website and reviewing the many emails that he and the Council have received. He complimented Planner Sally Barros for her hard work over a prolonged period of time in trying to represent the best interests of the community, and he expressed appreciation to the community members who attended the meeting for their sincere interest in the direction of the neighborhood and the City. Councilmember Stephens commented on the work of the General Plan Advisory Committee and its recognition of the need for improvements to the MacArthur corridor, and on the City’s Housing Element, which contains housing goals imposed by the State. Councilmember Stephens noted the tremendous growth in the state and the changing landscape. He stated that we cannot go back to the way it used to be, and sustainable housing must be built at a higher density.

A motion was made by Councilmember Stephens, seconded by Councilmember Starosciak, to pass the ordinance to print, adopt the resolution and approve the planned development.

Vice Mayor Grant commented that this project represents a lot of housing on a small piece of property with inadequate parking to support it, and she asked the Council to consider lowering the density to the minimum 17 units in order to maintain the required three affordable units.

- **Minute Order No. 2007-058**, Motion Approving the Planned Development PLN2006-00104; to construct a 23-unit, three-story residential for-sale row-home development at the corner of MacArthur Boulevard and Herma Court on a lot that totals 0.99 acre. Units range in livable area from 1,151 square feet to 2,042 square feet. The site is zoned CC Commercial Community District and RS Residential Single-Family District. 311-335 MacArthur Boulevard; Assessor's Parcel Numbers 76-311-1-1, 76-311-1-3, 76-311-3, 76-311-4, and 76-311-5; Ruffin Architecture (Applicant); Settlemeir Properties (Property Owner). (1009)

The City Council approved the Planned Development PLN2006-00104 to construct a 23-unit, three-story residential for-sale row-home development at the corner of MacArthur Boulevard and Herma Court on a lot that totals 0.99 acre. Units range in livable area from 1,151 square feet to 2,042 square feet. The site is zoned CC Commercial Community District and RS Residential Single-Family District. 311-335 MacArthur Boulevard; Assessor's Parcel Numbers 76-311-1-1, 76-311-1-3, 76-311-3, 76-311-4, and 76-311-5; Ruffin Architecture (Applicant); Settlemeir Properties (Property Owner).

M/S/C Stephens and Starosciak. Ayes: 5; Noes: 1 (Grant); Absent: 1 (Gregory)

Council recessed from 10:08 p.m. to 10:17 p.m.

- B. Matter of Appeal by International Church Foursquare Gospel, Applicant, of the Decision of the Planning Commission's Denial of **PLN2006-00049**; Rezone and Zoning Map Amendment to rezone the properties identified as **14600 and 14850**

Catalina Street from Industrial Park (IP) to Industrial Park, Assembly Use Overlay (IP-AU). No physical changes to the properties are proposed as part of this entitlement. The project site is located at the southeast corner of Catalina Street and Farallon Drive and is comprised of three separate parcels. Assessor's Parcel Numbers 80G-933-20, -21, and -22-1; International Church Foursquare Gospel (Property Owner and Applicant).

This being the time and place for the Public Hearing on the above matter, City Manager Jermanis gave background on the item and introduced Planning Manager Debbie Pollart. Ms. Pollart gave a PowerPoint presentation providing additional background on the Applicant's request for a rezone of the 14600/14850 Catalina property to IP-AU to allow for assembly use, the reasons for the Planning Commission's denial of the request for rezone and zoning map amendment, the Applicant's appeal of the decision, and staff's recommendation.

Appellant Peter MacDonald addressed the City Council regarding the zoning issues, including the adverse parking and traffic impacts generated by the church at its current location on Manor Boulevard. Mr. MacDonald noted that the new location on Catalina has ideal facilities and parking for the church, as well as good arterial access. Mr. MacDonald commented that he feels churches are compatible uses with light industrial. He indicated that their uses are complementary because their activities peak at different times, and churches support ancillary services that businesses need, such as child care, after school programs and human support activities. Mr. MacDonald noted that neighboring businesses have expressed support for the church's relocation to Catalina. He commented on Farallon Drive as an arterial, providing access to main streets and the freeway.

Paul Gantt, speaking on behalf of Faith Fellowship, stated that he is a certified safety professional and registered environmental assessor and has reviewed the health and safety concerns associated with this project. Following his study, he concluded that there is no rational reason to restrict the church from locating to the site on the basis of the health and safety concerns. Mr. Gantt provided a brief background on hazardous materials business plans and the overlapping federal, state and local regulations which protect the safety of workers and the community.

Gary Mortara, pastor of Faith Fellowship Church, commented that he believed he was working hand in hand with City staff, and the Planning Commission's denial caught him off guard. Pastor Mortara stated that he didn't feel the application should have been denied due to health hazard, and the property meets seven of the eight criteria established for the Assembly Use Overlay. He indicated that the subject property fits the church's use very well. Pastor Mortara commented that the church does not provide paid babysitting; however, child care is provided for their programs. He described the current services and the days and hours they are provided.

Jeff McGallion, speaking on behalf of Faith Fellowship, commented that he went to Orange, Texas to help rebuild after Hurricane Rita. He observed that churches are where people turn in an emergency; churches make the community.

The Hearing was then opened to the public.

Diane Bagüés, San Leandro resident, addressed the City Council, urging the Council to deny the Church's appeal. Ms. Bagüés commented that the Church bought the Catalina property knowing that it was zoned for industrial use. She expressed concern about taking land away from industrial uses which provide jobs and contribute to the City's tax base. Ms. Bagüés commented that the zoning change would set a precedent that would prevent the denial of similar requests in the future. Ms. Bagüés commented that a flyer which was disseminated in the neighborhood to gain support from the neighbors for the Church's move was misleading and disingenuous.

Kathy Sanchez, Marina Gardens HOA, addressed the City Council, commenting on a letter sent to the Council requesting denial of the appeal which she co-signed with Ed Jaramillo of the Marina West HOA. Ms. Sanchez expressed concern regarding the impact of the proposed church on Doolittle Drive traffic, the required parking which she feels is inadequate for the number of church members, and the loss of tax revenue and increased burden on the City's infrastructure and services. Ms. Sanchez commented on a letter she recently received from Pastor Mortara in which he stated that, if the Church's application was approved, he would keep his members from driving or parking on Doolittle Drive.

Pastor Mortara addressed the issue of traffic on Doolittle Drive, commenting that the bulk of the Church traffic would be directed onto Wicks Boulevard.

There being no further comments from the public, and without objection, the Public Hearing was closed.

A motion was made by Councilmember Prola, seconded by Councilmember Souza, to deny the appeal.

Councilmember Prola commented that Faith Fellowship bought the Catalina property knowing that it was zoned for industrial use, and he expressed concern about taking property out of the tax base. Councilmember Prola noted that the presidents of all three homeowners associations in the area have sent letters in opposition to the application. He expressed concern that Wicks and Doolittle are already heavily impacted on Wednesday evenings, and the Church's plan to hold a weekly Wednesday night gathering for 400 people would have a direct negative effect on the neighborhood. Councilmember Prola expressed hope that the Church would choose one of the 196 sites in San Leandro designated for assembly use.

Councilmember Souza thanked the members who attended the meeting to speak in support of the Church. She stated that she believes Faith Fellowship does wonderful things for San Leandro.

- **Minute Order No. 2007-059**, Motion Denying the Appeal by International Church Foursquare Gospel, Applicant, and Upholding the Decision of the

Planning Commission's Denial of PLN2006-00049; Rezone and Zoning Map Amendment to rezone the properties identified as 14600 and 14850 Catalina Street from Industrial Park (IP) to Industrial Park, Assembly Use Overlay (IP-AU). No physical changes to the properties are proposed as part of this entitlement. The project site is located at the southeast corner of Catalina Street and Farallon Drive and is comprised of three separate parcels. Assessor's Parcel Numbers 80G-933-20, -21, and -22-1; International Church Foursquare Gospel (Property Owner and Applicant). (1099)

The City Council denied the appeal by International Church Foursquare Gospel, Applicant, and upheld the decision of the Planning Commission's denial of PLN2006-00049; rezone and Zoning Map amendment to rezone the properties identified as 14600 and 14850 Catalina Street from Industrial Park (IP) to Industrial Park, Assembly Use Overlay (IP-AU). No physical changes to the properties are proposed as part of this entitlement. The project site is located at the southeast corner of Catalina Street and Farallon Drive and is comprised of three separate parcels. Assessor's Parcel Numbers 80G-933-20, -21, and -22-1; International Church Foursquare Gospel (Property Owner and Applicant).

M/S/C Prola and Souza. Ayes: 6; Noes: 0; Absent: 1 (Gregory)

4. JOINT CITY COUNCIL/SAN LEANDRO REDEVELOPMENT AGENCY PUBLIC HEARINGS

None.

5. PUBLIC COMMENTS

Public Comments are limited to 3 minutes per speaker, subject to adjustment by the Mayor. When you address the City Council, you should **fill out a speaker card** and submit it to the City Clerk so the order of speakers may be determined and an official record of names and addresses obtained. The public is invited to make comments on items of public interest **NOT** listed on the Agenda.

Darlene Evans, San Leandro resident, addressed the City Council regarding churches in San Leandro and Faith Fellowship Church's application. She asked where Faith Fellowship will go.

6. CITY MANAGER AND CITY ATTORNEY REPORTS AND COMMENTS

City Manager Jermanis commented on the wonderful Cinco de Mayo celebration coordinated by the staff of the Recreation and Human Services Department.

7. AMENDMENT OF CONSENT CALENDAR

City Councilmembers or staff have an opportunity at this time to request that an item be removed from the Consent Calendar for the presentation of a staff report or other special consideration. Members of the Public may request the opportunity to address the City Council regarding items remaining on the Consent Calendar by filling out a speaker card and submitting it to the City Clerk prior to the calling of Item 7, Amendment of Consent Calendar. Items remaining on the Consent Calendar will be considered for approval under one motion.

No amendment to Consent Calendar.

8. CONSENT CALENDAR

Consent Calendar items are considered for approval by the City Council with one single action. As described above in Item 7, Amendment of Consent Calendar, the City Council may remove items from the Consent Calendar for purposes of presentation or discussion. Members of the public who have requested to address the Council regarding items remaining on the Consent Calendar may do so for up to 3 minutes per item with a maximum of 5 minutes for all items. Items listed on the Consent Calendar are deemed to have been read by title.

The items on the Consent Calendar were approved by the following vote:

M/S/C Stephens and Souza. Ayes: 6; Noes: 0; Absent: 1 (Gregory)

9. ITEMS REMOVED FROM CONSENT CALENDAR

Public comments are limited to 3 minutes per speaker per item, subject to adjustment by the Mayor.

None.

10. ACTION ITEMS

Public comments are limited to 3 minutes per speaker per item, subject to adjustment by the Mayor.

- A. Matter of Selection of Vice Mayor (complies with City Charter Section 310 which states that at its first regular meeting in May, the Council shall designate one of its members Vice Mayor, to serve for a period of one year and until a successor is elected and qualified).

Councilmember Starosciak commented on the excellent job Vice Mayor Grant has done in representing the City and as a mentor and role model to the new members of the Council.

- Minute Order No. 2007-061, Motion to Reelect Surlene Grant as Vice Mayor. (1315)

The City Council reelected Surlene Grant as Vice Mayor.

M/S/C Starosciak and Prola. Ayes: 6; Noes: 0; Absent: 1 (Gregory)

Mayor Santos commented that when he served on the City Council in 1984, the vice mayor position was rotated, and every member of the Council had the opportunity to serve. For the past several years, the vice mayor position stayed within Districts 1 and 4. Mayor Santos requested that the issue of selection of the vice mayor be referred to the Rules and Communications Committee for discussion. There was consensus of the Council to do so.

- B. Request from Councilmember Starosciak to Reconsider the Resolution Authorizing City Manager to Sign a Letter of Intent to Support the Formation of the East Bay Regional Communication System (EBRCS) Governed by a Joint Powers Authority (JPA) for Alameda and Contra Costa Counties.

Item 10.B. was taken prior to Item 3, Public Hearings.

C. Report on Closed Session Actions Taken

None.

11. CITY COUNCIL REPORTS

A. Reports on Intergovernmental Agencies

Vice Mayor Grant reported on the ACTIA meeting she attended on behalf of Mayor Santos. A survey was recently sent out on ACTIA's small and local business enterprise programs.

Vice Mayor Grant reported that she also attended the Congestion Management Agency (CMA) meeting on behalf of Councilmember Starosciak. She reported that there is a small contingent on the CMA which is interested in revisiting the issue of allowing trucks back on I-580, and the meeting packet contained a memo from CMA Executive Director Dennis Fay to the CMA, recommending a study of the issue. Vice Mayor Grant recalled that several years ago, members of the City Council worked with then Assemblymember Ellen Corbett to support legislation to make the truck ban permanent. Councilmember Starosciak stated that she will monitor the issue and work with the Council's counterparts in Oakland and the County Supervisors representing San Leandro and Oakland. Vice Mayor Grant recalled that the Council held community meetings and took a position on the issue. Mayor Santos requested that staff research the actions that were taken on the matter by the former City Council.

Councilmember Souza reported that she and Councilmember Gregory attended a Fire Commission meeting last week. The Fire Department gave a presentation on its vehicles and fleet maintenance.

Mayor Santos reported that he attended a Waste Management Authority (WMA) meeting on behalf of Vice Mayor Grant. He reported on WMA's effort to reduce waste by 75% by 2010, and there was concern that the County may not make the goal. Mayor Santos encouraged the Council to visit www.stopwaste.org for recycling information.

B. Reports on Conferences and Seminars

None.

C. Reports on City Council Committees

1. Business and Housing Development Committee Meeting of April 12, 2007. **Accepted as submitted.**
2. City and San Leandro Unified School District Liaison Committee Meeting of April 19, 2007. **Accepted as submitted.**

12. CITY COUNCIL COMMENTS

Vice Mayor Grant commented that she was recently selected to participate in the League of California Cities Civic Leadership Institute, which is a forum to discuss state issues and public policy. Her area of focus will be the future of housing and energy supply in California. Vice Mayor Grant thanked the Council for the privilege of serving as vice mayor. She inquired about the status of the property at 143rd and Washington.

Councilmember Souza commented on the wonderful Cinco de Mayo event, and the participation by two of the City commissioners, Amada Robles and Juan Manuel Martinez. She reported that she visited the San Leandro Aquatics Center on Sunday, along with over 600 people. Councilmember Souza commented on the amount of recyclables being thrown in the garbage at the Aquatics Center and inquired about placing recycling bins at City parks and facilities. In support of the commitment by the City to reduce greenhouse gas emissions, Councilmember Souza suggested evaluating the feasibility of left turn-only lanes, such as at Alvarado and Aladdin or at Doolittle and Fairway. She stated that she would forward a list to staff of suggested intersections for study.

Councilmember Starosciak expressed appreciation to staff, and particularly the Community Development Department, for putting together the information for tonight's Council meeting. She noted that staff responded to many inquiries and concerns over the past few months, and she complimented them on their professionalism and their handling of tonight's meeting.

Councilmember Stephens commented on the increase in community preservation activity and the anticipated resulting increase in the number of issues that will need to be evaluated. He pointed to the need for a process to evaluate concerns of the community, and suggested having a commission for this purpose. Councilmember Stephens suggested that rather than creating a new commission, perhaps the BZA or Planning Commission might be tasked with this responsibility. He suggested that the matter be referred to the Rules and Communications Committee for discussion and consideration. There was consensus of the Council to do so.

Councilmember Prola commented that he would like to see the notification radius increased from 300 feet to 500 feet. He commented that the increase would result in more community involvement. Councilmember Prola noted that in his meetings with neighborhood groups, residents have complained about the lack of notification or short notice. He requested that the Council consider expanding the notification radius. Councilmember Prola commented that he would like to see the inclusionary zoning requirement be *at least* 15%, and more would be better.

Mayor Santos commented that the inclusionary requirement is already 15%, and a density bonus is also available. He commented that the notification issue has been studied many times and most recently about two years ago. Staff will provide information to the Council on inclusionary zoning and expansion of the notification radius. Mayor Santos commented that he had an

enjoyable time at the Cinco de Mayo celebration and enjoyed working with Commissioner Robles. On Saturday, he and Councilmember Souza attended the Holy Spirit Cemetery cleanup, and the benefit Guns and Hoses softball game between Police and Fire at Thrasher

City of San Leandro City Council and San Leandro Redevelopment Agency Joint Meeting—May 7, 2007

Park. Mayor Santos commented on problems with signal lights in District 2, such as at Bancroft and 150th, East 14th at Harry's Hof Brau, and 136th and San Leandro Boulevard. Mayor Santos suggested that staff provide a report to the Council on the signal light timing. Mr. Jermanis indicated that staff would provide a report.

13. ADJOURN

The meeting was adjourned at 11:43 p.m.

RESPECTFULLY SUBMITTED:

A handwritten signature in cursive script, reading "Marian Handa", written over a horizontal line.

MARIAN HANDA

City Clerk of the City of San Leandro
